Introduction

About Just Remember

The game starts with all the ⭐ face down and player take turns to turn over two ⭐.

If the two ⭐ have the answer of the questions, then the ⭐ will be opened, otherwise the ⭐ turn face down again.

The winner is the person with the most opened ⭐ when all the ⭐ have been taken.

# What is ITIL ?

Best practices for delivering IT services

By having Flashcard or Anki like behaviour, this game will help players familliar and memorize things easy with ITIL lessons and the plus is having fun.

Methods in Education

By Memorizing

Improve other brain functions, such as attention, concentration, and focus. Also, improve visual recognition.

By Repitation

Space repitation helps players recall the meaning of focused topcis and some keywords.

Expectations

01

Quickly Reckon the Meaning

Players should be able to recognize particular topics fast enough, naturally without thinking.

02

Having Fun

Meanwhile, players are learning, they feel entertained.
